

Class 1B: Answering Common Objections

1. There is no scientific evidence for God.

Can you weigh a chicken with a tape measure?

Science can only observe physical things...

God is not physical. God is Spirit.

Therefore, science doesn't have the tools to say whether God exists or doesn't exist.

It is like saying you can weigh a chicken with a tape measure...

How can Jesus be the only way?

To many, it is an issue of fairness.

The Greatest Person: (John 8:58-59).

- Jesus talked about who He is, and His relationship with God the Father, more than any other subject.
- If Jesus is the Creator of the Universe, then the question is solved.
- Question: **“Who do you think Jesus is?”**

Solved the Greatest Problem:

- The human heart (Jeremiah 17:9, Romans 6:23).
- Sin is the only Christian doctrine that can be scientifically verified.
- Sin brings an eternal punishment, who can solve it?

with the **Greatest Solution:**

- Every religion says you must do something to earn God's acceptance...Jesus says it's done for you!

with the Greatest Solution:

Karma vs. Gospel

- In Hinduism, Karma teaches, “you did it- you pay for it.”
- In Christianity, the Gospel teaches, “you did it- but Christ pays for it.” - Stephen Neil

In Christianity, it is the only true story where the hero dies for the villain...

In every society the king sends his people out to die for him and their country. Jesus our King went out and died for His people.

and defeats our greatest enemy: Death!
